Subject: Grant of prior Environmental Clearance (EC) to the proposed project under the provision of the EIA Notification 2006 -regarding.

Sir/Madam,

This is in reference to your application submitted to MoEF&CC vide proposal number IA/WB/IND1/518357/2025 dated 21/01/2025 for grant of prior Environmental Clearance (EC) to the proposed project under the provision of the EIA Notification 2006 and as amended thereof.

2. The particulars of the proposal are as below :

(i) EC Identification No.	EC25A1005WB5157431N
(ii) File No.	IA-J-11011/198/2023-IA-II(IND-I)
(iii) Clearance Type	Fresh EC
(iv) Category	A
(v) Project/Activity Included Schedule No.	3(a) Metallurgical Industries (ferrous and non ferrous)
(vi) Sector	Industrial Projects - 1
(vii) Name of Project	Expansion of the Existing Ferro Alloy Plant from 1800 TPA to 3600 TPA (max) for Production of Ferro Molybdenum or Medium/ Low Carbon Ferro Chrome or Ferro Titanium or Medium/ Low Carbon Ferro Manganese or Ferro Vanadium or Ferro Tungsten or Ferro Niobium or Ferro Nickel or Ferro Cobalt or in combination of any through Alumino-Exothermite process by M/s Satvik Enterprises Limited at A – 17, Panagarh Industrial Park, P.O – Panagarh Bazar, Dist. – Paschim Bardhaman, West Bengal
(viii) Name of Company/Organization	SATVIK ENTERPRISES LIMITED
(ix) Location of Project (District, State)	PASCHIM BARDHAMAN, WEST BENGAL

3. The proposed project activity is listed at S. No. 3(a) Metallurgical industries (Ferrous and Non-ferrous) under Category “A” of the schedule of the EIA Notification, 2006, and appraised at Central Level.

4. The instant proposal was considered in the 74th EAC Meeting held during 10th – 11th February 2025 wherein after detailed deliberations, the committee recommended the proposal for grant of Environment Clearance under the provisions of EIA Notification, 2006 subject to the stipulation of specific conditions and general conditions. The minutes of the meeting and all the project documents are available on PARIVESH portal which can be accessed at <https://parivesh.nic.in>.

5. The details of the proposal are as per the EIA/EMP report submitted by the proponent. The salient features of the proposal as presented during the above-mentioned meetings of EAC (Industry 1 Sector) are at **Annexure-II**.

6. The Unit configuration and capacity of the proposed project is at **Annexure-III**.

7. The EAC, in its 74th EAC Meeting held during 10th – 11th February 2025, inter-alia, deliberated the following:

i. The instant proposal is for expansion of the Existing Ferro Alloy Plant from 1800 TPA to 3600 TPA (max) for Production of Ferro Molybdenum (FeMo) (or) Medium/Low Carbon Ferro Chrome (FeCr) (or) Ferro Titanium (FeTi) (or) Medium/ Low Carbon Ferro Manganese (FeMn) (or) Ferro Vanadium (FeV) (or) Ferro Tungsten (FeW) (or) Ferro Niobium (FeNb) (or) Ferro Nickel (FeNi) (or) Ferro Cobalt (FeCo) or in combination of any through Alumino Exothermite process.

ii. The existing plant was implemented based on CTE from WBPCB vide Memo no. 819-5/WPBD-NOC(7522)/21 dated 22.09.2021 for Ferro Alloy Plant to produce 1800 TPA Ferro-Molybdenum. Consent to Operate for the existing unit was accorded by State Pollution Control Board vide Ir. No. 1568-7/WBPD-Cont (7890)/22 dated 25.08.2022. The validity of CTO is up to 30.06.2027. The EAC deliberated on the justification provided by PP for non-requirement of EC for the existing project and found it satisfactory.

iii. The EAC, constituted under the provision of the EIA Notification, 2006 comprising Expert Members/domain experts in various fields, examined the proposal submitted by the Project Proponent in desired format along with EIA/EMP reports prepared and submitted by the Consultant accredited by the QCI/ NABET on behalf of the Project Proponent.

iv. The EAC noted that the Project Proponent has given an undertaking that the data and information given in the application and enclosures are true to the best of his knowledge and belief and no information has been suppressed in the EIA/EMP reports. If any part of data/information submitted is found to be false/ misleading at any stage, the project will be rejected and Environmental Clearance given, if any, will be revoked at the risk and cost of the project proponent.

v. The Committee noted that the EIA reports are in compliance of the ToR issued for the project, reflecting the present environmental status and the projected scenario for all the environmental components. The Committee deliberated on the proposed mitigation measure towards Air, Water, Noise and Soil pollutions. The Committee suggested that the storage of toxic/explosive raw materials/products shall be undertaken with utmost precautions and following the safety norms and best practices.

vi. The EAC also took into consideration the drone survey of the project site and kml file on the Google Earth presented by the project proponent along with DSS of the project site on PARIVESH and made following deliberations accordingly.

vii. The proposed project will be installed on the available spaces within the existing factory premises comprising of total 0.81 Ha (2 Acres) land, which has been acquired and is in possession of the Company.

viii. Sonai is at a distance of 0.66 km from the project site along with other sensitive areas such as schools, habitations etc. exists within the study area of the project site. The EAC opined that proponent shall take appropriate environmental safeguard measures to minimise the impact on the habitation of the locals. The project proponent needs to strengthen green belt all around the plant area to reduce the dust pollution. The PP shall also include some of these locations in its environmental monitoring programme.

ix. There are water bodies within the study area of the project site. The EAC opined that a robust and full proof Drainage Conservation scheme to protect the natural drainage and its flow parameters; along with Soil conservation scheme and multiple Erosion control measures shall be implemented.

x. Total water demand for the project after expansion will be 20 KLD (Existing: 10 KLD + Expansion: 10 KLD). The raw water will be withdrawn from Sink well (ground water). The EAC deliberated on the water requirement is of the opinion that PP shall obtain necessary permission from the Competent Authority in this regard.

xi. The Committee has deliberated on the baseline data and incremental GLC due to the proposed project and noted that PM_{2.5} and PM₁₀ are reported high. The EAC opined that PP shall undertake stringent measures to minimise the levels of PM₁₀ and PM_{2.5}.

xii. The Committee also deliberated on the public hearing issues along with revised action plan submitted by the proponent to address the issues raised during the public hearing and found it satisfactory.

xiii. The PP has submitted that they have developed 33% green belt in the area of 0.27 Ha/0.66 acres) within the total plant area of 0.81 Ha (2 acres) and the green belt has been further strengthened along the project boundary. Till date, around 680 no of trees (@2,500 trees per Hectare) have been planted within the project area. The EAC deliberated on the greenbelt plan and is of the opinion that greenbelt shall be maintained as per CPCB norms. Also, the project proponent shall develop container plantations and promote the growth of creepers along boundary walls, structures, and open spaces within the project premises to enhance green cover and mitigate dust pollution.

xiv. The EAC deliberated on the certified compliance report of SPCB and found it satisfactory.

xv. The committee deliberated details of carbon foot prints and carbon sequestration study w.r.t. proposed project and found them to be satisfactory.

xvi. The EAC also deliberated on the written submission of the project proponent and found it satisfactory.

xvii. The EAC deliberated on the proposal with due diligence in the process as notified under the provisions of the EIA Notification, 2006, as amended from time to time and accordingly made the recommendations to the proposal. The Experts Members of the EAC found the proposal in order and recommended for grant of environmental clearance.

xviii. The environmental clearance recommended to the project/activity is strictly under the provisions of the EIA Notification 2006 and its subsequent amendments. It does not tantamount/construe to approvals/consent/permissions etc. required to be obtained or standards/conditions to be followed under any other Acts/ Rules/ Subordinate legislations, etc., as may be applicable to the project. The project proponent shall obtain necessary permission as mandated under the Water (Prevention and Control of Pollution) Act, 1974 and the Air (Prevention and Control of Pollution) Act, 1981, as applicable from time to time, from the State Pollution Control Board, prior to construction & operation of the project.

xix. The EAC also reviewed the EC conditions (specific and general) pertaining to Industry-I projects and observed that some of the specific conditions stipulated so far in the previously recommended EC projects are common and applicable to most of the projects in general. In view of the same, the General Conditions (in case of EC projects) have been revised through reallocation of these common conditions from specific to General Conditions (in case of EC projects). Accordingly, the instant project is also being stipulated with the modified General conditions.

8. The MoEF&CC has examined the proposal in accordance with the Environment Impact Assessment (EIA) Notification, 2006 & further amendments thereto and after accepting the recommendations of the Expert Appraisal Committee (Industry-1 Sector) hereby **decided to grant Environment Clearance** for instant proposal of **M/s Satvik Enterprises Ltd** under the provisions of EIA Notification, 2006 subject to the following specific conditions and general conditions (**Annexure-I**). The PP shall ensure compliance of OM dated 14-01-2025 regarding streamlining the implementation of GSR 702 and GSR 703 dated 12-11-2024 through which projects requiring prior EC were exempted from requirement of CTE.

9. The Ministry reserves the right to stipulate additional conditions, if found necessary at subsequent stages and the project proponent shall implement all the said conditions in a time bound manner. The Ministry may revoke or suspend the

environmental clearance, if implementation of any of the above conditions is not found satisfactory.

10. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of the Environment (Protection) Act, 1986.

11. Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

12. The above conditions shall be enforced, *inter-alia* under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India / High Courts and any other Court of Law relating to the subject matter.

13. This issues with approval of the competent authority.

Annexure 1

Specific EC Conditions for (Metallurgical Industries (Ferrous And Non Ferrous))

1. Specific

S. No	EC Conditions
1.1	This Environmental clearance is granted subject to final outcome of Hon'ble Supreme Court of India, Hon'ble High Court, Hon'ble NGT and any other Court of Law, if any, as may be applicable to this project.
1.2	The project proponent shall comply with all the environmental protection measures and safeguards proposed in the documents submitted to the Ministry. All the recommendations made in the EIA/EMP in respect of environmental management, and risk mitigation measures relating to the project shall be implemented.

S. No	EC Conditions
1.3	The project proponent shall utilize modern technologies for capturing carbon emission and shall also develop adequate carbon sink/ carbon sequestration resources with an aim to meet the carbon neutrality mission in a time bound manner. The implementation report shall be submitted to the IRO, MoEF&CC in this regard.
1.4	Sonai is at a distance of 0.66 km from the project site along with other sensitive areas such as schools, habitations etc. exists within the study area of the project site. Proponent shall take appropriate environmental safeguard measures to minimise the impact on the habitation of the locals. The project proponent needs to strengthen green belt all around the plant area to reduce the dust pollution. The PP shall also include some of these locations in its environmental monitoring programme.
1.5	There are water bodies within the study area of the project site. A robust and full proof Drainage Conservation scheme to protect the natural drainage and its flow parameters; along with Soil conservation scheme and multiple Erosion control measures shall be implemented.
1.6	Total water demand for the project after expansion will be 20 KLD (Existing: 10 KLD + Expansion: 10 KLD). The raw water will be withdrawn from Sink well (ground water). PP shall obtain necessary permissions from the Competent Authority.
1.7	PP shall undertake stringent measures to minimise the PM10 and PM2.5 to minimise the levels.
1.8	Three tier Green Belt shall be maintained in atleast 33% of the project area, of adequate width and tree density shall not be less than 2500 per ha. Survival rate of green belt developed shall be monitored on periodic basis to ensure that damaged plants are replaced with new plants in the subsequent years. PP shall also develop greenbelt in the form of shelter belt comprising of total of 6 rows of 2x2 m plantation with tall trees & broad leaves with thick canopy along with windshield inside the plant premises to act as green barrier for air pollution & noise levels towards sensitive areas nearby project site. Compliance status in this regard, shall be submitted to concerned Regional Office of the MoEF&CC. The project proponent shall develop container plantations and promote the growth of creepers along boundary walls, structures, and open spaces within the project premises to enhance green cover and mitigate dust pollution.
1.9	The PP shall undertake plantation, in compliance to MoEFCC OM dated 24.07.2024, in the earmarked 33% or 40% greenbelt area, as the case may be, as a part of tree plantation campaign 'Ek Ped Maa Ke Naam' Campaign and the details of the same shall be uploaded on MeriLiFE portal at (https://merilife.nic.in)
1.10	All the commitments made towards socio-economic development of the nearby villages shall be satisfactorily implemented. The action plan based on the social impact assessment study of the project as per the EMP in accordance to the Ministry's OM dated 30.09.2020 amounting to Rs. 0.28 Crores shall be strictly implemented and progress shall be submitted to the Regional Office of MoEF&CC.
1.11	The project proponent shall undertake village adoption programme and prepare and implement the action plan to develop them into a model village in consultation with the State Administration.
1.12	The PP shall ensure compliance of OM dated 14-01-2025 regarding streamlining the implementation of GSR 702 and GSR 703 dated 12-11-2024 through which projects requiring prior EC were exempted from requirement of CTE.

1. Statutory Compliance

S. No	EC Conditions
1.1	The Environment Clearance (EC) granted to the project/ activity is strictly under the provisions of the EIA Notification, 2006 and its amendments issued from time to time. It does not tantamount/ construe to approvals/ consent/ permissions etc., required to be obtained or standards/conditions to be followed under any other Acts/Rules/Subordinate legislations, etc., as may be applicable to the project.
1.2	This Environmental clearance is granted subject to final outcome of Hon'ble Supreme Court of India, Hon'ble High Court, Hon'ble NGT and any other Court of Law, if any, as may be applicable to this project.

2. Air Quality Monitoring And Preservation

S. No	EC Conditions
2.1	The project proponent shall install 24x7 continuous emission monitoring system at process stacks to monitor stack emission for monitoring AAQ parameters with respect to standards prescribed in Environment (Protection) Rules 1986 as amended from time to time. The CEMS and CAAQMS shall be connected to SPCB and CPCB online servers and calibrate these systems from time to time according to equipment supplier specification through labs recognized under Environment (Protection) Act, 1986 or NABL accredited laboratories.
2.2	The project proponent shall monitor fugitive emissions in the plant premises at least once in every quarter through laboratories recognized under Environment (Protection) Act, 1986 or NABL accredited laboratories.
2.3	Sampling facility at process stacks shall be provided as per CPCB guidelines for manual monitoring of emissions.
2.4	Appropriate Air Pollution Control (APC) system shall be provided for all the dust generating points including fugitive dust from all vulnerable sources, so as to comply prescribed stack emission and fugitive emission standards.
2.5	The project proponent shall provide leakage detection and mechanized bag cleaning facilities for better maintenance of bags.
2.6	Sufficient number of mobile or stationery vacuum cleaners shall be provided to clean plant roads, shop floors, roofs, regularly.
2.7	Ensure covered transportation and conveying of raw material to prevent spillage and dust generation. The project proponent use leak proof trucks/dumpers carrying coal and other raw materials and cover them with tarpaulin.
2.8	Recycle and reuse iron ore fines, coal and coke fines, lime fines and such other fines collected in the pollution control devices and vacuum cleaning devices in the process after briquetting/ agglomeration.

S. No	EC Conditions
2.9	The project proponent shall provide primary and secondary fume extraction system at all heat treatment furnaces.
2.10	Wind shelter fence and chemical spraying shall be provided on the raw material stock piles.
2.11	Design the ventilation system for adequate air changes as per prevailing norms for all tunnels, motor houses, Oil Cellars.
2.12	Pollution control system in the plant shall be provided as per the CREP Guidelines of CPCB.
2.13	The project proponent shall adopt the Clean Air practices like mechanical collectors, wet scrubbers, fabric filters (bag houses), electrostatic precipitators, combustion systems (thermal oxidizers), condensers, absorbers, adsorbers, and biological degradation. Controlling emissions related to transportation shall include emission controls on vehicles as well as use of cleaner fuels. Sufficient numbers of additional truck mounted Fog/Mist water cannons shall be procured and operated regularly inside the project premises and also in the surrounding villages to arrest suspended dust in the atmosphere.
2.14	Bag filters shall be cleaned regularly and efficiency of bag filter system shall be monitored at regular intervals.
2.15	Water Sprinklers/Water mist system shall be installed near raw material yards, operational units and other strategic locations to control fugitive emissions from the plant.
2.16	The particulate matter emissions from the process stacks shall be less than 30 mg/Nm ³ and measures shall be undertaken as per the submitted action plan. Efficient Air monitoring equipment shall be installed.
2.17	Following additional arrangements to control fugitive dust shall be provided: a. Fog / Mist Sprinklers at all on bulk raw material storage area (at the transfer points) like Iron Ore, Coal and for Fly Ash and similar solid waste storage areas. b. Proper covered vehicle shall be used while transport of materials. c. Wheel washing mechanism shall be provided in entry and exit gates with complete recirculation system.

3. Air Quality Monitoring And Preservation In Case Of Ferro Alloy Plants

S. No	EC Conditions
3.1	Briquetting and Jigging plant shall be installed in Ferro Alloys Plant.
3.2	The PP shall minimize the evaporation losses in jigging operation to less than 10% using suitable advanced process.
3.3	The 4th hole extraction system shall be provided in the Sub Merged Arc Furnaces and EAF.
3.4	Industry is going to use silica quartz in large quantities and going to produce Silico Manganese and Ferro Silicon alloy steel. Therefore, it is necessary to control silica/quartz exposures at production Departments, not only emission norms as per Indian Factories Act. The permissible limit for silica/quartz should be within 10 mg/m ³ for total dust as per Indian Factories Act. Therefore, it is

S. No	EC Conditions
	recommended to monitor personal and area exposures for silica quartz dust in the process plants. (in case of Silico Manganese and Ferro Silicon alloy steel)

4. Water Quality Monitoring And Preservation

S. No	EC Conditions
4.1	The project proponent shall install 24x7 continuous effluent monitoring system with respect to standards prescribed in Environment (Protection) Rules 1986 as amended from time to time and connected to SPCB and CPCB online servers and calibrate these system from time to time according to equipment supplier specification through labs recognized under Environment (Protection) Act, 1986 or NABL accredited laboratories.
4.2	The project proponent shall monitor regularly ground water quality at least twice a year (pre- and post-monsoon) at sufficient numbers of piezometers/sampling wells in the plant and adjacent areas through labs recognized under Environment (Protection) Act, 1986 and NABL accredited laboratories.
4.3	Garland drains and collection pits shall be provided for each stock pile to arrest the run-off in the event of heavy rains and to check the water pollution due to surface run off.
4.4	Water meters shall be provided at the inlet to all unit processes in the steel plants.
4.5	The project proponent shall make efforts to minimise water consumption in the steel plant complex by segregation of used water, practicing cascade use and by recycling treated water.
4.6	The proposed project shall be designed as Zero Liquid Discharge Plant. ETP shall be installed and there shall be no discharge of effluent from the plant. Domestic effluent shall be treated in Sewage Treatment Plant. Suitable measures shall be adopted for sewage water handling to ensure no contamination of any kind of water body.
4.7	All stockyards shall have impervious flooring and shall be equipped with water spray system for dust suppression. Stock yards shall also have garland drains and catch pits to trap the run off material and shall be implemented as per the action plan submitted in EIA/EMP report.
4.8	Rain water harvesting shall be implemented to recharge/harvest water as per the action plan submitted in the EIA/EMP report.

5. Noise Monitoring And Prevention

S. No	EC Conditions
5.1	Noise pollution shall be monitored as per the prescribed Noise Pollution (Regulation and Control) Rules, 2000 and amendments thereof, and report in this regard shall be submitted to Regional Officer of the Ministry as a part of six-monthly compliance report.
5.2	The ambient noise levels should conform to the standards prescribed under E(P)A Rules, 1986 viz. 75 dB(A) during day time and 70 dB(A) during night time.

6. Energy Conservation Measures

S. No	EC Conditions
6.1	Provide solar power generation on roof tops of buildings, for solar light system for all common areas, street lights, parking around project area and maintain the same regularly;
6.2	Provide LED lights in their offices and residential areas.

7. Waste Management

S. No	EC Conditions
7.1	Oil Collection pits shall be provided in oil cellars to collect and reuse/recycle spilled oil.
7.2	Kitchen waste shall be composted or converted to biogas for further use.
7.3	100% utilization of fly ash shall be ensured. All the fly ash shall be provided to cement and brick manufacturers for further utilization and Memorandum of Understanding in this regard shall be submitted to the Ministry's Regional Office.
7.4	The Plastic Waste Management Rules 2016, inter-alia, mandated banning of identified Single Use Plastic (SUP) items with effect from 01/07/2022. In this regard, CPCB has issued a direction to all the State Pollution Control Boards (SPCBs)/Pollution Control Committees (PCCs) on 30/06/2022 to ensure the compliance of Notification published by Ministry on 12/08/2021. The technical guidelines issued by the CPCB in this regard is available at https://cpcb.nic.in/technical-guidelines-3/ . All the project proponents are hereby requested to sensitize and create awareness among people working within the Project area as well as its surrounding area on the ban of SUP in order to ensure the compliance of Notification published by this Ministry on 12/08/2021. A report, along with photographs, on the measures taken shall also be included in the six monthly compliance report being submitted by the project proponents.
7.5	A proper action plan must be implemented to dispose of the electronic waste generated in the industry.

8. Green Belt

S. No	EC Conditions
8.1	The project proponent shall prepare GHG emissions inventory for the plant and shall submit the programme for reduction of the same including carbon sequestration by trees.
8.2	Project proponent shall submit a study report on Decarbonisation program, which would essentially consist of company's carbon emissions, carbon budgeting/ balancing, carbon sequestration activities and carbon capture, use and storage and offsetting strategies. Further, the report shall also contain time bound action plan to reduce its carbon intensity of its operations and supply chains, energy transition pathway from fossil fuels to Renewable energy etc. All these activities/ assessments should be measurable and monitor able with defined time frames.
8.3	Greening and Paving shall be implemented in the plant area to arrest soil erosion and dust pollution

S. No	EC Conditions
	from exposed soil surface.

9. Public Hearing And Human Health Issues

S. No	EC Conditions
9.1	Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.
9.2	The project proponent shall carry out heat stress analysis for the workmen who work in high temperature work zone and provide Personal Protection Equipment (PPE) as per the norms.
9.3	Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP. Safe drinking water, medical health care, creche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.
9.4	Occupational health surveillance of the workers shall be done on a regular basis and records maintained.

10. Environment Management

S. No	EC Conditions
10.1	The project proponent shall comply with the provisions contained in this Ministry's OM vide F.No. 22-65/2017-IA.III dated 30/09/2020. As part of Corporate Environment Responsibility (CER) activity, company shall adopt nearby villages based on the socio-economic survey and undertake community developmental activities in consultation with the village Panchayat and the District Administration as committed.
10.2	The company shall have a well laid down environmental policy duly approve by the Board of Directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violation of the environmental / forest / wildlife norms / conditions. The company shall have defined system of reporting infringements / deviation / violation of the environmental / forest / wildlife norms / conditions and / or shareholders / stake holders. The copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of six-monthly report.
10.3	A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly to the head of the organization.
10.4	Performance test shall be conducted on all pollution control systems every year and report shall be submitted to Integrated Regional Office of the MoEF&CC.

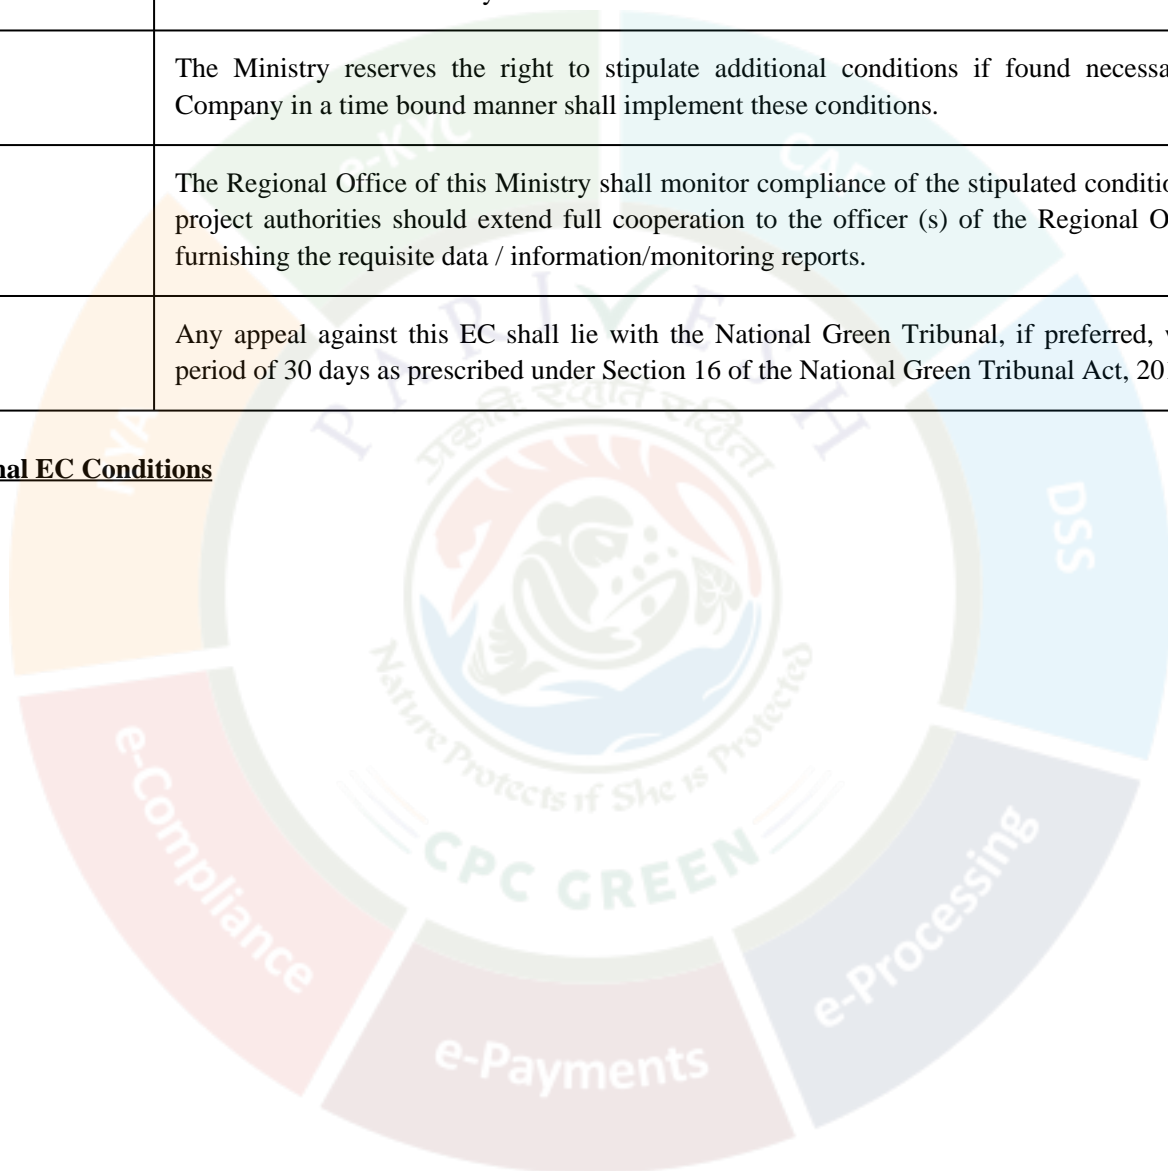

11. Miscellaneous

S. No	EC Conditions
11.1	The project proponent shall make public the environmental clearance granted for their project along with the environmental conditions and safeguards at their cost by prominently advertising it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days and in addition this shall also be displayed in the project proponent's website permanently.
11.2	The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.
11.3	The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.
11.4	The project proponent shall monitor the criteria pollutants level namely; PM10, SO2, NOx (ambient levels as well as stack emissions) or critical sectoral parameters, indicated for the projects and display the same at a convenient location for disclosure to the public and put on the website of the company.
11.5	Action plan for developing connecting and internal road in terms of MSA as per IRC guidelines shall be implemented
11.6	The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment, Forest and Climate Change at environment clearance portal.
11.7	The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.
11.8	The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.
11.9	The project proponent shall abide by all the commitments and recommendations made in the EIA/EMP report, commitment made during Public Hearing and also that during their presentation to the Expert Appraisal Committee.
11.10	The recommendations of the approved Site-Specific Wildlife Management Plan (in case of involvement of Schedule-I species) shall be implemented in consultation with the State Forest Department. The implementation report shall be furnished along with the six-monthly compliance report to the concerned Regional Office of the MoEF&CC.
11.11	The PP shall put all the environment related expenditure, expenditure related to Action Plan on the PH issues, and other commitments made in the EIA/EMP Report etc. in the company web site for the information to public/public domain. The PP shall also put the information on the left over funds allocated to EMP and PH as committed in the earlier ECs and shall be carried out and spent in next three years, in the company web site for the information to public/public domain.

S. No	EC Conditions
11.12	No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment, Forests and Climate Change (MoEF&CC).
11.13	Concealing factual data or submission of false/fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.
11.14	The Ministry may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.
11.15	The Ministry reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.
11.16	The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/monitoring reports.
11.17	Any appeal against this EC shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

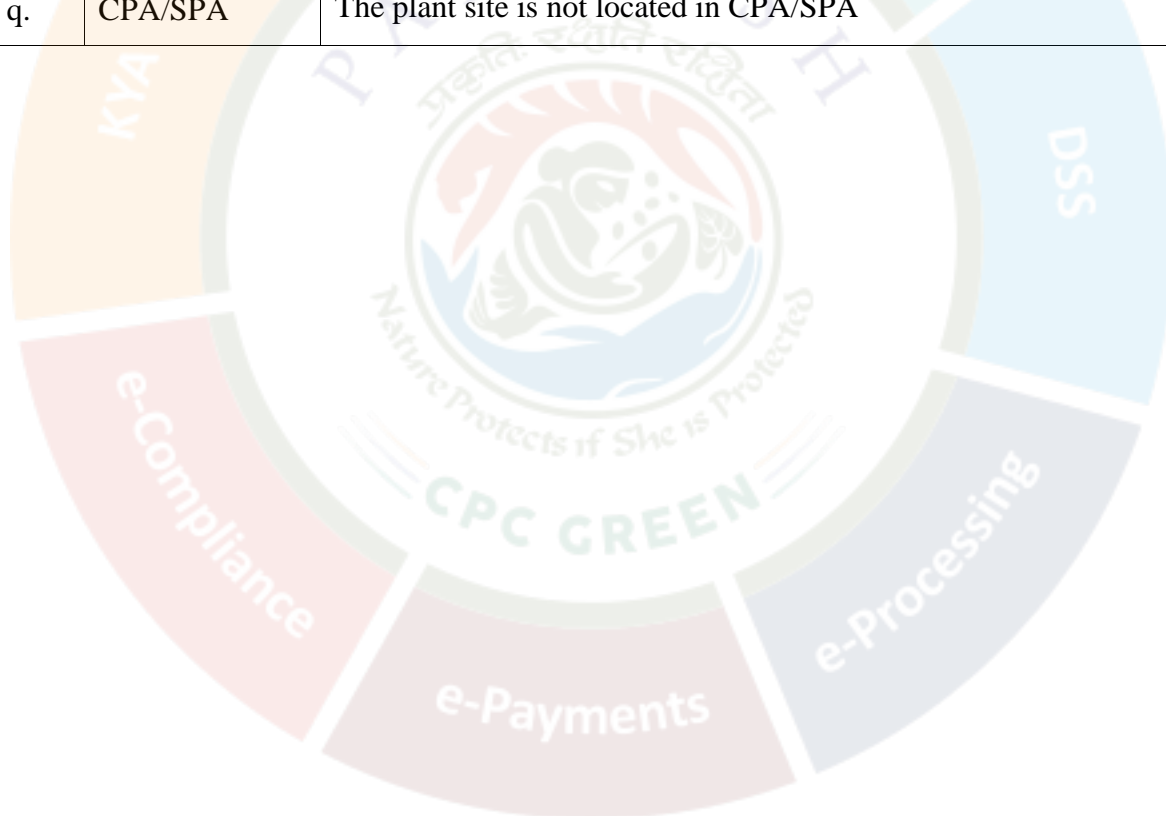

Additional EC Conditions

N/A

S.No	Particulars	Details
a.	Terms of Reference for undertaking EIA study	18.07.2023
b.	Period of baseline data collection	October, 2023 to December, 2023
c.	Date of Public Consultation	9 th August, 2024
d.	Action plan to address the PH issues	Public Hearing and need based activities detail proposed are attached as Annexure IV .
e.	Location of the project	Located at Panagarh Industrial Park, P.O – PanagarhBazar, Dist. – Paschim Bardhaman, West Bengal
f.	Total land	The proposed project will be installed on the available spaces within the existing factory premises comprising of total 0.81 Ha (2 Acres) land, which has been acquired and is in possession of the Company.
g.	Land acquisition details as per MoEF&CC O.M. dated 7/10/2014	Complete land is under the possession of the company
h.	Existence of habitation & involvement of R&R, if any	Plant Site: No habitation exists within the plant site.
i.	Elevation of the project site	Above Mean Sea Level (AMSL): 289 ft (88m)).)
j.	Involvement of Forest land if any.	No Forest Land is involved in the project site.
k.	Water body exists within the project site as well as study area	Plant site: None Study area: River Damodar – about 6.40km. from the project site in SW direction.
l.	Existence of ESZ / ESA / national park / wildlife Sanctuary / biosphere	There is no ESZ/ESA/national park/wildlife sanctuary/ biosphere reserve/tigerreserve/elephant reserve etc. present within the study area

S.No	Particulars	Details						
	Reserve / tiger reserve / elephant reserve etc. if any within the study area							
m.	Project cost	The capital cost of the project is Rs.1.85 Crores						
n.	EMP cost	<table> <tr> <th>EMP</th><th>Capital (Rs. in Crores)</th><th>Recurring (Rs. in Crores)</th></tr> <tr> <td></td><td>0.78 Crores</td><td>0.07 Crores</td></tr> </table>	EMP	Capital (Rs. in Crores)	Recurring (Rs. in Crores)		0.78 Crores	0.07 Crores
EMP	Capital (Rs. in Crores)	Recurring (Rs. in Crores)						
	0.78 Crores	0.07 Crores						
o.	Employment opportunity	The employment generation from the expansion is 110.						
p.	Water and Power requirement	Total water requirement for the project after expansion is 20 m ³ /day and total power requirement is 0.55 MW						
q.	CPA/SPA	The plant site is not located in CPA/SPA						

The unit configuration and capacity of existing and proposed project is given as below

Sl. No.	Products	Existing		Proposed		Total after Expansion	
		Configuration	Prod. (TPA)	Configuration	Prod. (TPA)	Configuration	Prod. (TPA)
1	Ferro Molybdenum (FeMo) (or)	• Reaction Vessel / M.S Crucible – 16 nos.	1,800		--	• Reaction Vessel / M.S Crucible – 16 nos.	1,800
2	Medium/Low Carbon Ferro Manganese (FeMn) (or)	• Jaw Crusher 500 kg – 1 no. • Pulverizer 1000 kg. – 1 no.	--	• Jigging Plant – 1x10 TPH • Roaster 500 kg	3,600	• Jaw Crusher 500 kg – 1 no. • Pulverizer 1000 kg. – 1 no.	3,600
3	Medium/Low Carbon Ferro Chrome (FeCr) (or)	• Rotary Mixer 1000 kg – 1 no. • Suction hood with Air Pollution	--		3,600	• Rotary Mixer 1000 kg – 1 no. • Suction hood with Air Pollution	3,600
4	Ferro Titanium (FeTi) (or)	Control Facility – 1 no.	--		1,800	Control Facility – 1 no.	1,800
5	Ferro Vanadium (FeV) (or)		--		1,800	• Jigging Plant – 1x10 TPH Roaster 500 kg	1,800
6	Ferro Tungsten (FeW)(or)		--		1,800		1,800
7	Ferro Niobium (FeNb) (or)		--		1,800		1,800
8	Ferro Nickel (FeNi) (or)		--		1,800		1,800
9	Ferro Cobalt (FeCo)		--		1,800		1,800

Action plan as per MoEF&CC O.M. dated 30/09/2020:

Concerns raised during Public Hearing	Physical Activity and Action Plan	Particulars	YEAR OF IMPLEMENTATION	Total Expenditure (Rs. in Lakhs)
			1 st Year	
<ul style="list-style-type: none"> Clarification of the internal drainage system within the plant premises 	<p>The plant is designed as a zero liquid discharge plant. The entire wastewater will be recycled for various purposes inside the plant.</p> <p>Waste water to be generated within the plant premises is mainly from domestic sources (like canteen etc.) and they are having proper drainage line for discharge of domestic waste water after treatment.</p>	Physical Target (1 Year)	The physical Target for the entire activities shall be achieved in a year	-
		Budget in Lakhs	Included in the EMP Cost.	
<ul style="list-style-type: none"> Recruitment process of the additional workers and local people 	<p>In the proposed project, top most priority will be given to the local people of Kaksa village based on their academic qualification.</p> <p>All additional recruitment (except technical & skilled workers) shall be carried out from nearby villages in consultation with the local panchayet authorities.</p>	Physical Target (1 Year)	Various training program shall be given to enhance their technical skills	6
		Budget in Lakhs	6	

Concerns raised during Public Hearing	Physical Activity and Action Plan	Particulars	YEAR OF IMPLEMENTATION	Total Expenditure (Rs. in Lakhs)
			1 st Year	
<ul style="list-style-type: none"> Repair and maintenance of the school buildings for small children in the locality, supply of chairs & tables to schools and arrangement supply of portable drinking water to the local people through construction of new tube wells Installation of light and fans in the local school 	<p>Project Proponent have already had a discussion with the Upo-Pradhan regarding the same issue and committed to comply the same.</p> <p>The application may be submitted on plain paper before the company office and the same shall be executed after approval and allocation of funds from the company head office (in consultation with the local Panchayet office)</p> <p>Financial support will be given to the local School for the renovation / repairing work through extension of building / class room/ development of libraries / provision of computers for educational development purpose.</p>	Physical Target (1 Year)	<ul style="list-style-type: none"> ➤ Repair and maintenance of existing school building and supply of chairs & tables to schools ➤ Development of library in the Kanksa School. ➤ Development of Drinking Water Infrastructure - 12 numbers Tube well / Hand Pump in nearby villages (@ Rs. 50,000/- per Tube Well / Hand Pump). ➤ Installation of 14 lights and 14 fans to the local schools ➤ 15 Computers will be given to the local schools 	16
		Budget in Lakhs	16	
<ul style="list-style-type: none"> Steps to be taken to prevent pollution, specially to control the generation of any air 	<p>Adequate control measures like Multi cyclone with Bag Filter, Pulveriser with inbuilt bag filter, dust suppression system & Stacks of adequate height at</p>	Physical Target (1 Year)	The physical Target for the entire activities shall be achieved in a year	-
		Budget in Lakhs	Included in the EMP Cost.
